The knock sensors in 4.3-liter V-6-powered light pickups, such as the C1500 and Silverado, were in slightly different locations than the SUV and passenger vans. The pre-1996 models had two sensors, one on each side of the block. The later year models had a single knock sensor mounted in the engine block in front of the starter.

The 4.3 Liter Vortec engine is built by General Motors. This is a V6 engine that has had a long history, although much has changed along the way. The 4.3L Vortec built today is certainly significantly different from the original Vortec first offered in the mid-1980s. The list of cars that have used the 4.3L Vortec is a long one. This engine has ...
