Kayak Craft

The method of construction described allows one to build a kayak completely in two parts (hull and deck, inside and outside) and join them as the very last step by a simple glueing method. I built my first kayak using a different method and ended up with a pain in the neck and lower back supplemented by contortionist's skills while trying to finish the work inside the joined deck and hull.

Kayak & Fishing Kayak | Hobie

Birch Bark Canoe To make a miniature birch bark canoe, collect strips of birch bark and cut a strip of bark 3 inches wide and about 5 inches long. Fold the strip in half lengthwise and cut a 1/2-inch "V" into each end of the strip. Overlap the ends of the bark where you made the cuts until the top edges are even.
