E Contracts

E contracts, or electronic contracts, are a type of contract formed online. The interaction between the parties in forming the contract can be by many different electronic means: e-mail, through a computer program, or by two electronic agents programmed to recognize the formation of the contract.

eContracts

The combination of federal and state laws ensures that most e-contracts and e-signatures are valid regardless of where the parties live or execute the contract. What Is an Electronic Contract? An e-contract is an agreement created and "signed" in electronic form—no paper is used.

Electronic Signatures and Online Contracts | Nolo

E-contracts can broadly be classified into three different types. Shrink-wrap transactions have been the most common and have been around for a while now while the other two types of e-contracts are rather novel and unique to e-commerce.

E-Commerce and E-Contracts: Overview And Analysis

E contracts are contracts that are not paper based and are electronic in nature. These contracts are generally made for speedy entering into a contract or for the convenience of the parties. They are best made between parties who live in 2 different parts of the world and have to enter into an agreement.

City Of Philadelphia - Department of Finance (v2.6.0.2)

The City purchases products and services from thousands of businesses every year. All contract opportunities, both sealed bids and Requests For Proposals (RFPs) are listed in multiple places depending on the type of service that you provide or product that you sell.

City of Philadelphia: Contracts

Contracts are a way of creating a formalized agreement between two entities for the transfer or transport of items and ISK. Unlike the trade window, a contract cannot be altered by the owner once it has been submitted, thus making scams much less likely (though far from impossible).

Contracts - EVE University Wiki

E-contracts are conceptually very similar to traditional (paper based) commercial contracts. Vendors present their products, prices and terms to prospective buyers. Buyers consider their options, negotiate prices and terms (where possible), place orders and make payments.
