Hey all, I'm trying to setup a phone bridge to my BigBlueButton server. I followed the BBB install instructions and everything went swimmingly, until I tried adding a phone number from Signalwire to the conference bridge. I installed mod_signalwire.so and setup the token, 'signalwire adopted' says "+OK Adopted" in fs_cli and I'm using the following for a dialplan (in /opt/freeswitch/conf ...

FreeSWITCH open source telephony platform

FreeSWITCH simply requires activation of the XMPP service and proper configuration of devices allowed to use this feature. Conference calling is a standard feature for both switches and it is hard to pinpoint a clear winner. Asterisk's design accommodates dial-in (meet-me) conferencing, as does FreeSWITCH. ...

FreeSWITCH Versus Asterisk Comparison | WhichVoIP

FreeSWITCH™ is a highly scalable, multi-threaded, multi-platform communication platform. It provides unlimited extensions, voicemail-to-email, music on hold, call parking, call center, call queues, phone provisioning and many other features.

Apr 26 16:34:24 big systemd[1]: Stopped freeswitch. Apr 26 16:34:24 big systemd[1]: freeswitch.service: Start request repeated too quickly.

BigBlueButton : Troubleshooting

After reading all the Freeswitch books, I recently decided to compare them to a book entitled "Asterisk- the Definitive Guide". The latter is a great book which teaches an ordinary programmer how to set up and use Asterisk, with detail comparable to a programming textbook. On the other hand, Freeswitch books are more like vague guided-tours.
