Japanese Homes: Design and ideas for modern living

Graphic design is the practice of combining text with images and concepts, most often for advertisements, publications, or websites. The history of graphic design is frequently traced from the onset of moveable-type printing in the 15th century, yet earlier developments and technologies related to writing and printing can be considered as parts of the longer history of communication.

History of graphic design - Wikipedia

This work hinges on such ideas and practices as ecological design, modular and incremental design, standardization, and flexible and temporal concepts in the design of spaces. The blurred edges between the traditional and modern technical aspects of building design, as addressed by both vernacular builders and modern architects, are explored.
