The training data analysis will motivate you to engage in a regular MOTomed movement. You can view all important training values (e.g. symmetry, performance, speed, distance and time) during the entire training session on the MOTomed color display.

MOTomed letto2 Leg trainer - MOTomed

The RECK Company took advantage of this groundbreaking discovery and developed the MOTomed Viva 2 Parkinson. The movement trainer produces fast, motor-assisted rotations of up to 90 rpm (forced exercise). The classic rotation speed in MOTomed Viva 2 is 60 rpm. These high-speed rotations help to improve motor functions after minimal treatment time.
