Mathematics ...

Geometry (from the Ancient Greek: $\gamma \epsilon \omega \mu \epsilon \tau \rho(\alpha; geo-"earth", -metron "measurement") is, with arithmetic, one of the oldest branches of mathematics. It is concerned with properties of space that are related with distance, shape, size, and relative position of figures. A mathematician who works in the field of geometry is called a geometer.. Until the 19th century, geometry was almost ...$
