Disordered

Mental illness can affect criminal behavior, but it's important to dissociate people with mental illness from violent acts and criminality in general. People often assume that a person must be mentally ill to commit an especially heinous crime.

committed by people who do not have mental health problems. People with mental health problems are more dangerous to themselves than they are to others: 90 per cent of people who die through suicide in the UK are experiencing mental distress. In 2009, the total population in England and Wales was just over 43 million.
